

Assembly and Service Technician

Sursee (CH)

Full-time

Application CH / FR / DE / AT

APF Advanced Particle Filters GmbH is an international company with locations in Salzburg and Sursee. We develop and produce high-quality fine dust filters for biomass firing systems from 100 to 6,500 kW: from standard solutions to customer-specific filter systems.

To strengthen our team in Switzerland, we are looking for an Installation and Service Technician (m/f/d) who will install our APFenergyFilters™ at customer sites and provide service to existing systems. You work independently, travel internationally and are supported by our experienced technical and back office team.

Your assignments usually start directly from your place of residence in Switzerland; our location in Sursee serves, among other things, as a spare parts warehouse and contact point.

Your area of responsibility

- **Installation of our filter systems** at the customer's site on the basis of technical drawings and assembly plans
- Maintenance, **repair** and **service work** on existing APF filter systems
- **Error analysis** and **troubleshooting** as well as replacement of spare and wear parts
- Technical support of our customers on site
- Close coordination and collaboration with our technical and back office team
- **Documentation of the work carried out** and repairs

Your profile

- **Technical background** in the **mechanical field** through training or corresponding professional experience, e.g. in machine/plant assembly, commercial vehicle (agricultural) machinery, or comparable technology
- **Basic understanding of electrical engineering** and **experience** in mechanical/plant engineering or technical service is an advantage
- **Confident handling of technical drawings** and **assembly plans**
- Independent, reliable and solution-oriented way of working as well as a professional appearance for the customer
- **Willingness** to work regularly in **Switzerland** and other **European countries, even for several days**
- Category B driving licence and **residence** in **Switzerland**
- Good knowledge of German; Knowledge of French and English is an advantage

We offer

- Company bus, as well as modern and complete technical equipment, laptop and company mobile phone
- Start your assignments usually directly from home. Travel time counts as working time from the start of the journey
- No regular weekend assignments and no on-call service
- Intensive practical training together with experienced fitters and technicians as well as support from our technical and back office team
- Varied and independent work with assembly and service assignments in Switzerland and other European countries
- Personal working environment with short decision-making paths, cooperation at eye level and mutual support
- Opportunities for professional development. We support you if you want to develop further.

We look forward to receiving your application! [Apply now](#)
